

Paradigm is the world's first commercial provider of military band satellite communications and the only provider of end-to-end, hardened and protected satellite services, using X-band and UHF frequencies compliant to NATO standards.

Paradigm is the prime contractor for the UK Ministry of Defence Skynet 5 contract, signed in October 2003 and now worth £3.6 billion.

In addition to complete X-Band packages, Paradigm offers capacity, coverage augmentation, anchoring and back-haul services, as well as terminal leasing.

Paradigm provides services to other military and government organisations and has supplied Milsatcom services to NATO, the Netherlands, Portugal, Canada, France and Germany.

Paradigm is a subsidiary of EADS Astrium, and part of EADS Astrium Services, which delivers space based services to military and government users. Astrium Services owns 75% of Milsat Services – provider to the German Armed Forces, provides services to the French Navy through ASTEL-S, and leads the EADS interest in Galileo.
